

Levels 4-9

Each Unit includes that part of the structure which lies within the following boundaries:

Horizontal (Upper and Lower) Boundaries: The upper horizontal boundary of each Unit shall be the plane formed by the lower surface of the sheathing, wood framing or concrete of such ceiling, so that the drywall, interior plaster, weatherboard, casting stone, or other material comprising the ceiling shall constitute a portion of the Unit. The lower horizontal boundary of each Unit shall be the plane formed by the upper surface of the concrete slab or deck work, with the flooring constituting part of the Unit, with the flooring constituting part of the Common Elements.

Vertical Boundaries: With respect to walls separating the Unit from the exterior of the Building or the Unit from a Common Element such as a hallway, the perimetric or vertical boundaries of each Unit shall be the plane formed by the centerline of the wall separating the Unit from the exterior of the Building or from another Unit. The perimetric or vertical boundaries of walls between Units, the perimetric or vertical boundary of the Unit's several stories shall be the plane of such walls. The plaster, "sheathing" or weatherboard, or other material comprising the walls of the Unit, if they are attached to their intersections with each other and the upper and lower horizontal boundaries of the Unit, shall constitute a portion of the Unit.
