Element**

Levels 4-9

Each Unit includes that part of the structure which lies within the following boundaries:

Horizontal Boundaries: The upper horizontal boundary of each Unit shall be the plane formed by the lower surface of the structural frame or covering of such Unit, so that the drywall, lath and plaster, wallboard, ceiling tile, or other material comprising the ceiling shall constitute a portion of the Unit. The lower horizontal boundary of each Unit shall be the plane formed by the upper surface of the concrete slab upon which the flooring constituting part of the Unit, with the exception of the Common Elements.

Vertical Boundaries: Where it is desired to make a wall separating the Unit from the exterior of the Building or the Unit from a Common Element such as a hallway, fire partition, etc., the boundary of each Unit shall be the vertical plane formed by the outer surface of the wall separating the Unit from the exterior of the Building or from said Common Element. With respect to common walls between Units, the perpendicular or vertical boundary of the Units served thereby shall be the centerline of such walls. The plaster, sheathing, or wallboard, or other material comprising the walls of the Unit, as they are extended to their intersections with each other and the upper and lower horizontal boundaries of the Unit, shall constitute a portion of the Unit.
